CAREER OBJECTIVE

Electrical/Electronics Engineering graduate and fullstack developer seeking a Junior Fullstack Developer role. Experienced in building REST APIs and web applications using React, Next.js, Node.js, Express, and MongoDB. Eager to contribute clean, reliable code and grow within a strong engineering team.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST API Design, JWT Auth, Middleware

Databases: MongoDB, Mongoose, PostgreSQL, Prisma

Tools: Git, GitHub, Postman, Docker, Vercel, VS Code, Figma

Other: CRUD Operations, WebSockets (Socket.io), bcrypt, Zod, React Hook Form

PROJECTS

Static Landing Page Clone *Stack: Next.js · TypeScript · Tailwind CSS*

Live: <https://next-js-static-clone-page.vercel.app/> GitHub: <https://github.com/VeekeAustin/nextJsStaticClonePage>

- Rebuilt a real SaaS marketing page from scratch — hero, testimonials, integrations grid, and footer.
- Implemented pixel-accurate responsive layouts using Tailwind CSS Flexbox and Grid.
- Applied component reuse patterns with `.map()` and Next.js App Router conventions.

Counter App *Stack: React · Next.js · JavaScript · Tailwind CSS*

Live: <https://next-assignment-ochre-seven.vercel.app/> GitHub: <https://github.com/VeekeAustin/nextAssignment>

- Built a hands-on React project focused on mastering `useState` and controlled components.
- Demonstrated understanding of React re-render behaviour and component lifecycle.

PROFESSIONAL EXPERIENCE

Classroom Teacher (NYSC) | C-Rose Academy, Port Harcourt | *July 2025 – June 2026*

- Designed and delivered lesson plans on fullstack web development concepts including HTML/CSS, JavaScript, React, and Node.js.
- Prepared structured technical documentation, reports, and teaching materials to professional standards.
- Managed multiple deadlines, student records, and stakeholder communication simultaneously.

Embedded Systems / IoT Intern | KodeHauz Solutions Planet, Eket | *Dec 2021 – July 2022*

- Assisted in planning, testing, and implementation of IoT and embedded systems projects.
- Prepared technical reports and project documentation; conducted troubleshooting and research.
- Collaborated with cross-functional team members to deliver project objectives on schedule.

EDUCATION

B.Eng. Electrical/Electronics Engineering (Telecommunications)

University of Uyo | Second Class Upper (2:1) | 2017 – 2024

NYSC

National Youth Service Corps (NYSC) | *July 2025 – June 2026*
